Hi Greg,

Yes, that's the correct map figure and it's public information. Feel free to use it. Good luck on the article and thanks for checking with us.

Best,
Shaina

Subject: Image copyright

Shaina / Jaron,

I am submitting a journal article from last year's capstone project that uses the map of the service area found at <https://www.rideuta.com/Services/UTA-on-Demand-by-Via>. The journal is open-access, and UTA is identified as the source of the figure. Can I use this figure with permission?
